### Grade level(s) and number of students in each grade:

If you are uncertain about the number of students in each grade, *please give an approximate total*. This will help a great deal in determining if adequate seating is available. **Our programs are planned for specific grade levels; therefore, we cannot include all grades in one program. We do not advertise or publish a calendar of programs. However, you may view the programs selected for each grade level under the Programs tab.**
